Briefly state why you should be and why you would like to be a member of the Restoration Advisory Board?

Are you currently or have you ever been involved with or affected by environmental cleanup activities on Camp Williams or at any other Department of Defense installation? If yes, please explain.

Restoration Advisory Board

General Information

The Restoration Advisory Board or RAB will be a committee comprised of community members, environmental regulators, local government representatives and other interested parties. Its purpose will be to advise the Utah National Guard (UTNG) on community concerns regarding participation in the military munitions response program (MMRP) at Camp Williams. The RAB is being formed to encourage community participation in the MMRP investigation process.

The RAB will be co-chaired by a member of the community (chosen by the RAB's community members) and by a representative from the UTNG. The RAB will develop its own mission statement and operating procedures, set the agenda for meetings and select the meeting location and time. The UTNG will provide administrative support for the RAB to include paying for all necessary meeting expenses.

Member Responsibilities

RAB members will serve voluntarily, without compensation, for a term to be set by the RAB. Members will be required to attend all meetings (usually held quarterly). RAB members will have the opportunity to review and comment on technical documents and reports related to the cleanup. Members will act as a liaison between the community and the UTNG and as such, are required to be available to community members and to exchange information and/or concerns. RAB members should be prepared to devote at least four hours per month to their RAB responsibilities.

Application Instructions

Please fill out the application completely. Please indicate the community that you would like to represent. Please state why you would like to be a member of the RAB. **You may attach additional pages, if necessary.** Selection of community members will be made by an independent selection committee. You must submit your application by mail to Concordia Communications, Inc., 2019 W 1900 S, Suite 100, Syracuse, UT 84075. Applications must be postmarked by November 14, 2009. Applications postmarked after Nov. 14 may be rejected.
